

Why should I buy a Pfister Waagen Bilanciai Scale?

Some remarks to help you with your decision:

SAFETY

The original company was founded in 1894 in Augsburg/Germany. We look back to a history of more than 106 years of successful activities in constructing large scales.

With 3 branch offices (Affing near Augsburg, Dortmund and Potsdam) and 10 service points (Worms, Bremen, Bielefeld, Magdeburg, Radebeul, Bautzen, Deggendorf, Nürnberg, Leutkirch and Augsburg) we are well positioned in the market and you will find us close to you.

PRESENT ALL OVER THE WORLD

We are represented not only in all European countries but also in 40 countries around the world by our own partners and representatives and by subsidiaries and partners of Bilanciai Group.

HIGH QUALITY PRODUCTS

We are certified according to DIN ISO 9001. Our concrete weighbridges are manufactured according to EN206, DIN8110; prefabricated concrete elements are subject to quality control. We are authorised specialists according to §191 WHG (Water Resources Act) approved by Germany Technical Inspection Authorities LGA TÜV. Our products obtaining certificate and approvals by PTB, CE, OIML, NTAP.

HIGHLY SKILLED SERVICE PERSONNEL

Our 22 service technicians and engineers are very well skilled and trained by periodic training courses and continuing education. All of them took the required exams at Germany Academy for Metrology and are part of our security management system OHRIS. Specialised engineers for construction and technics.

PERPETUAL REFINEMENTS

But in 2010 not less than 15 new products or product extensions will enter the market.

Do you already know our subsidiary company EHP in Bühl (Baden) – manufacturer of crane scales and special load cells? (www.ehp.de)

For further questions you can find us quick and easy: www.pfisterwaagen.de

We look forward to good cooperating!

July 2010
Harald Welscher - CEO
