

**CONTENTS: PRICE LIST
PLATFORM SCALE RANGE
WEIGHING INDICATORS**

By category	Model	Page
Desktop scales	PMA-L lacquered - series with central aluminium load cell PMA-S high grade steel- series with central aluminium load cell PMA - series with central high grade steel load cell PMA and PMP for counter scale terminal CPE 22	1-4
Platform scales	PRM - lacquered or high grade steel PRM-L - low cost version and options PRM-A fold-out (specially for food sector)	5 - 10
Passage scales	LPS - high grade steel	11
Pallet scales	BPU - lacquered or high grade steel	12
Hand-elevated fork lift truck scales	PTM weighing systems with integrated weighing terminals, lacquered or stainless steel	13
Fork lift truck scales	PTE-V non-verifiable version without electronic inclination sensor non-verifiable version with electronic inclination sensor verifiable versions with electronic inclination sensors	14
Overhead conveyor scales	AR-TC AR-M - Low cost version	15
Long material scales	PFL-TC	16
Weighing terminals for platform scales	D 70 - Low budget terminal for platform scales and system construction EV 7-S - Low cost high grade steel terminal for platform scales EV 22 - terminal for platform scales (ABS-plastic) D 430 - high grade steel terminal for platform scales CPE 22 - Counter weighing terminal	17 - 19 20
Weighing terminals for platform and truck scales	DWT 400-Improved weighing terminal with good price-performance ratio DWT 410-Improved weighing terminal for platform scales and truck weighbridges DWT 450-switchable (scale switch-over) weighing term. in INOX housing	21-23
Weighing terminals for truck scales	DWT 800 - universal implementation: weighing - dosing - control Self 800 - driver self service terminal	24-25 26
Printers	STB 60P - Heat-sensitive roll printer STB 60L - Heat-sensitive label printer STB 80 - High speed thermal matrix printer	27
Calibration cost sheet	Supplementary sheet	28
