

Mobile Wheel / Axle Load Scale

Specific and rapid weight investigation, just there where do you needed it.

- More profitable by burden check
- Raised up the safety
- Avoids fines
- Nearly everywhere applicable
- Easy for portable
- Simplified the data management

Meteor 2010 – XL

Mobile Wheel / Axle Load Scale

Ultra Slim Weighpad

Lightweight, high strength aluminium alloy

10t or 20t each weighpad-(500kg min weight required)

Static mode: 0.5% - 1% or better

Dynamic mode: 3-5% or better up to (5kmh).

Note: (Accuracy greatly dependant on site conditions & operator use)

120%

platform -40° to +70° / Weighing indicator 0° to +40°

Size of pad: 765mm x 470mm

actual weighing area/surface = 715mm x 420mm

Clip on mini ramps, which extend the platform on each side by 130mm (Ramp weight = 2.3kg ea). Note: Can be used without ramps.

Weight of pad:

19kg each

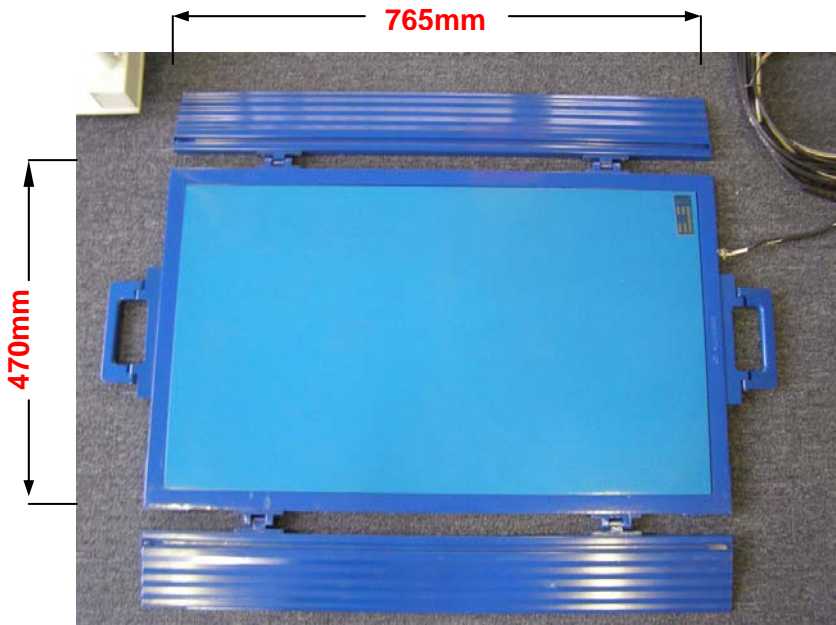

Height approx:

18mm

Ground level req:

<5mm within 0.4m²

Note: Actual weighing surface = 715mm x 420mm

Case Dimensions:

430 x 310 x 150mm (H)

Weight: 6.5Kg

Powered by 240v plus a self contained re-chargeable battery. Battery life approx 1 week with overnight recharge via 240vVadaptor.

1 Set Meteor 2010 – XL

consists of: 2 weighing pads, 4 clip on mini ramps, weighing indicator / controller / printer in hand carry case, measuring cable set, 3 spare paper rolls and 1 ink cartridge.

Meteor XL 20t wheel load

Meteor 2010 – XXL Mobile Wheel / Axle Load Scale

Capacity: 20t or 40t each weighpad (500kg min weight required)
Type: Ultra Slim Weighpad
Accuracy: **Static mode:** 0.5% - 1% or better
Dynamic mode: 3-5% or better up to (5kmh).
Note: (Accuracy greatly dependant on site conditions & operator use)
Rated overload: 120%
Temp: **platform** -40 to +70° / **weighing indicator** 0 to +40°
Material: Lightweight, high strength aluminium alloy
Size of pad: 950mm x 550mm
actual weighing area/surface = 900mm x 500mm
 Clip on mini ramps, which extend the platform on each side by 130mm
 (Ramp weight = 2.3kg ea). Note: Can be used without ramps.
Weight of pad: 30Kg / **Height approx:** 20mm
Ground level req: <5mm within 0.4m²

Note: Actual weighing surface = 900mm x 500mm

Case Dimensions:
 430 x 310 x 150mm (H)
Weight: 6.5Kg
Powered by 240v plus a self contained re-chargeable battery. Battery life approx 1 week with overnight recharge via 240V adaptor.

1 Set Meteor 2010 – XXL

consists of: 2 weighing pads, 4 clip on mini ramps, weighing indicator / controller / printer in hand carry case, measuring cable set, 3 spare paper rolls and 1 ink cartridge.
